

Schwartz Comes to Ireland- One half of the Irish story so far

Quality Improvement Division Health Service Executive, Blackrock Hospice & Galway Hospital

Our journey started in 2015 when the Quality Improvement Division engaged the Point of Care Foundation to licence, train and mentor staff in the Blackrock Hospice and Galway University Hospital to test the introduction of Schwartz Rounds in an Irish context.

At Blackrock Hospice we held our first Schwartz Round in January 2016

Round 1: Thank you letters

Round 2: What a patient taught me

Round 4: A patient I did not like

Round 3: Isolation

Round 5: New beginnings

Round 7: A bad day at work

Round 6: A place of refuge

And the story continues one round at a time....
