

# Peter Wilkinson

## Schwartz Shining Star

### **We would like to nominate Dr Peter Wilkinson, Schwartz Round Clinical Lead Facilitator / Consultant Cardiologist**

Peter has been running the Rounds since the beginning in October 2013 in the role of Clinical Lead facilitator. Peter's calm reassuring nature always ensures that tone of the Round is set in a way that creates a safe environment for staff to reflect on their emotions.

Peter always ensures that the panellists have been fully prepared by the team and follows through if they need additional support after the Rounds. Peter shares poignant articles and ideas with the Steering Group to help stimulate discussion and ideas for future Rounds. He's very true to the principle of Schwartz Rounds and this reflects in the way he connects with all staff. This also stops us from deviating from the purpose of Schwartz Rounds.

Peter has been involved in mentoring and training other organisations in running Rounds. His leadership inspires the rest of the team and motivates the team to seek excellence.

Despite all of this, Peter remains humble preferring any attention to be cast on the whole team rather than him.

To us he is the Schwartz Shining Star!
